PROFILE

As a Web developer, my objective is to make a positive impact on client, co-workers, and Internet using my skills and experience to design attractive websites.

COURSES

Front-End Web Development   10/2023 – 06/2024
CODESEED   Pandharpur, India
• Proficient in JavaScript, with practical experience in React frameworks.
• Skilled in HTML5, CSS3, and JavaScript (ES6+), with strong experience in React.js
for building dynamic UIs. Proficient in responsive design and cross-browser
compatibility.

PROJECTS

Instagram clone Using HTML , CSS , JS 🔗
Micro Project to get started with Web Development
Technologies Used - **HTML , CSS , JavaScript GIT**

Calculator Using HTML , CSS , Java Script 🔗
Developed a fully functional calculator using HTML, CSS, and JavaScript.

Tailwind CSS for designing responsive and visually appealing user interfaces.

Personal Portfolio Using ReactJS 🔗
React.js for creating dynamic and interactive web components.
This web application showcases a seamless integration of modern web development technologies.
Front End: React.js: Utilized for building dynamic and interactive user interfaces. HTML & CSS: Employed for
structuring and styling the web content. Tailwind CSS: Used for designing responsive and visually appealing
layouts with ease.

Food-Restaurants-UI 🔗
Developed a responsive navigation bar using Tailwind CSS and JavaScript, featuring a mobile-friendly design
with a hamburger menu. Optimized for seamless user experience across different screen sizes.
